     MPLAB Harmony Application Header File
16
17
18
     Company:
19
      Microchip Technology Inc.
20
21
     File Name:
22
     app.h
23
24
     Summary:
25
      This header file provides prototypes and definitions for the application.
26
27
     Description:
28
      This header file provides function prototypes and data type definitions for
       the application. Some of these are required by the system (such as the
29
       "APP Initialize" and "APP Tasks" prototypes) and some of them are only used
30
       internally by the application (such as the "APP STATES" definition). Both
31
32
      are defined here for convenience.
